Tam Pham II

Software Engineer | Full-Stack Development

Fort Worth, TX 817.845.1242 phamt@live.com tampham.io linkedin.com/in/tamphamjr github.com/openbracketdevelopment

PROFESSIONAL SUMMARY

Software engineer with 11+ years of professional experience delivering web applications and enterprise content platforms with React, Next.js, TypeScript, PHP, and APIs. Lead Craft CMS development for Fidium at Amdocs; build independent software in Go, Rust, and Python. Own delivery from requirements and design through testing, deployment, and maintenance, with cross-functional collaboration, mentoring, and code review. Use AI coding assistants with human review and validation.

TECHNICAL SKILLS

LANGUAGES: TypeScript, JavaScript, PHP, SQL, Python, Go (Golang), Rust

FRONT END: **React, Next.js,** Svelte, HTML / CSS, Tailwind CSS, **Sass,** Responsive Design, Web Accessibility

BACK END & CMS: **Craft CMS,** WordPress, **Headless CMS, GraphQL, REST APIs, Webhooks,** Okta / OIDC, **PostgreSQL,** MySQL, SQLite, **Redis,** ISR

DEVOPS & CLOUD: Continuous Integration and Continuous Delivery (CI/CD), GitLab CI/CD, GitHub Actions, **Docker, Kubernetes,** Amazon Web Services (AWS), Linux, **Nginx**

TESTING & TOOLING: Automated Testing, **Jest, Storybook, Dynatrace, Splunk,** Incident Response, Secure Coding, Code Review, Technical Documentation

AI-ASSISTED DEVELOPMENT: **GitHub Copilot, OpenAI Codex, Claude Code,** Cursor, Prompt Engineering for Coding Workflows

PROFESSIONAL EXPERIENCE

Software Engineer · Amdocs
Plano, TX (Remote) · Aug 2024 – Present

- Lead development of a headless Craft CMS, custom modules, page builder, and GraphQL API serving seven Fidium websites and applications across marketing, customer access, and purchasing.
- Introduced Redis caching alongside Incremental Static Regeneration (ISR) to reduce Craft CMS load from multiple production Kubernetes pods and improve React/Next.js response times.
- Built Next.js/React sites for Fidium Fiber, Business, Wholesale, Partners, and Consolidated, and the original fidium.net foundation; collaborate with the teams owning the portal and Buyflow purchasing experience.
- Maintain shared components, hooks, and webhooks with Jest unit tests and Storybook documentation; built Check Availability UX with a clear purchasing handoff.
- Configure Nginx reverse proxies for multiple sites from one repo; support GitLab CI/CD pipelines and Kubernetes deployments across dev, QA, staging, and production.
- Use Dynatrace and Splunk for observability and on-call incident response; collaborate with engineering, marketing, IT, and cloud teams, mentor developers, and review code.

Lead PHP / WordPress Developer · Linchpin
Rhode Island (Remote) · Apr 2024 – Aug 2024

- Led WordPress development with ACF, Gutenberg, and custom plugins for Birth23.org, Fluval Aquatics, and Nutrience, with performance optimization and SEO.
- Modernized Webpack and GitHub CI/CD pipelines; managed PHP upgrades, Nginx/Apache, production support, client collaboration, and code review.

WordPress Developer · Planit Advertising
Baltimore, MD (Remote) · Mar 2023 – Nov 2023

- Built custom WordPress sites and Gutenberg blocks, including the Toro Haven robotic mower launch site.
- Delivered through dev, staging, and production with Bitbucket test/deploy pipelines, QA, accessibility checks, maintenance, and code review.

Director of Interactive Services · Holmes Millet Advertising
Dallas, TX (On-site) · Oct 2015 – Mar 2023

- Led the interactive department, client discovery, project estimates, developer assignments, and training; delivered Craft CMS and WordPress sites with PHP, Twig, and JavaScript.
- Managed Linux hosting and deployments; collaborated with creative teams and clients on responsive websites, including the EarthX redesign, integrations, and SEO.

Web Developer · Pixel Clear Designs
Fort Worth, TX (On-site) · Dec 2014 – Jul 2015

- Delivered WordPress/PHP sites, migrations, plugin integrations, and mobile QA for clients including ESPS Trailers; trained clients and mentored creative hires.

Network Systems Administrator · Ross & Matthews Law Firm
Fort Worth, TX (On-site) · Apr 2013 – Dec 2014

- Administered Active Directory, Exchange, 80+ thin clients, and 100+ Windows workstations; supported help desk operations and desktop migrations.

IT Technician · E-lite Works
Fort Worth, TX (On-site) · Nov 2011 – Dec 2013

- Built and repaired desktop PCs, handled malware removal, backups, network troubleshooting, and customer support.

SELECTED SOFTWARE PROJECTS

Independent projects; source code and current scope are available on GitHub.

ByteDown — Go (Golang), libvips, PostgreSQL

- Built an asynchronous Go/libvips pipeline that preserves originals and creates responsive JPEG/PNG, WebP, and AVIF outputs with PostgreSQL-backed jobs.
- Separated the API from a Svelte/TypeScript workshop; added processing deadlines, job leases, and fenced result publication.

SitePaladin — Rust, Axum, Tokio

- Built a Rust/Axum website auditor with bounded HTML crawling, page-level findings, SQLite persistence, and JSON/CSV exports.
- Implemented outbound destination and redirect validation, authenticated operator sessions, and crawl/audit unit tests.

Hook, Line & Sender — Python, FastAPI, PostgreSQL

- Built a Python/FastAPI webhook relay with durable PostgreSQL acceptance, Celery/Redis tasks, signed outgoing messages, and delivery-attempt history.
- Implemented bounded retries and lease recovery for at-least-once delivery to one configured demo receiver.

Daguerrify — Svelte, TypeScript, WebGL2

- Built a Svelte/TypeScript browser editor using WebGL2 and GLSL for local JPEG/PNG adjustments and full-resolution export.
- Implemented non-destructive settings, bounded undo/redo, before/after comparison, import limits, and image-pipeline tests.

EDUCATION

The Art Institute of Fort Worth
BFA, Web Design & Interactive Media · Graduated Sept 2014

- Award for Best Portfolio, Web Design Division
- Dean's Honor Roll

CERTIFICATIONS

- Best UI/UX Design Agencies in Dallas, 2019–2022
- Progress Sitefinity Developer Certificate, 2019
- Cursor: GenAI-Driven SDLC, Mar 2026
- Secure Coding: Secure Application Development, Jun 2026
- Principles of Secure Coding, Jun 2026
- Secure Web Application Programming, Jun 2026
- Securing GenAI Systems, Jun 2026
